

Application Form for Large scale Garbage and Material Recycling and Clearing

>>>(Please fill out the application form three days in advance)

Precautions:

1. Large scale garbage disposal

1. Large garbage storage area at the landfill: Disposal is permitted only after applying for authorization. All garbage dumps are equipped with 24-hour surveillance equipment and will be checked when necessary, so please be sure to follow the rules. All household garbage dumped at this school will be reported to the police for investigation.
2. Please fill out the application form three days ago and do not dispose of garbage or other areas that may affect environmental hygiene without authorization.
3. The applicant is requested to carry out the transportation of garbage (appliances and equipment) "according to the arranged time/place" (if necessary, please cooperate with the applicant to move them directly to the container truck); large garbage must be disassembled, sorted, and recycled by the applicant itself before transportation: resource garbage must be placed in the recycling area, and general household garbage must be put in the garbage compactor.
4. After accepting the application, we will arrange the contractors and the processing time, and the result will be notified to the applicant by telephone.
5. Please dispose of construction waste (tiles, bricks, cement, plaster, etc.) in accordance with the law.

2. Material Recovery and Disposal

1. Before applying, please make sure that you have completed the property condemnation process and verify whether it is still in working order.
2. We will notify you separately by phone depending on the weight of the piece.

3. Others

1. Articles 12 and 50 of the Waste Disposal Law stipulate that those who mix garbage without separating it will be fined NT\$1,200~6,000.
2. In order to comply with the regulations and to prevent the breeding of dengue vector mosquitoes, we sincerely ask for your cooperation.

▲After the form is sent, it will be automatically sent to the email filled in the form. Please fill in the correct recipient email address!

Contact extension: After filling out the application forms for 5811&5810, be sure to send the paper copy to the environmental safety section.
